life. to the fullest.®

Abbott

* Scanning the sensor does not require lancets.

† *FreeStyle Libre*: A finger prick test using a blood glucose meter is required during times of rapidly changing glucose levels when interstitial fluid glucose levels may not accurately reflect blood glucose levels or if hypoglycemia or impending hypoglycemia is reported by the system or when symptoms do not match the system readings. *FreeStyle Libre 2*: Finger pricks are required if readings do not match symptoms or expectations.

‡ *FreeStyle Libre*: Trial kits are available for eligible patients who meet the labelling requirements of 18 years or older with diabetes mellitus. Limit of one trial kit per registrant. *FreeStyle Libre 2*: Trial kits are available for eligible patients who meet the labelling requirements of 4 years or older with diabetes mellitus. Limit of one trial kit per registrant.
